## STEAMSHIP AGENTS DISPLEASE LAUKEA

John Guerrero and Jose Martinez, the two Mexicans, who assaulted Chief A. P. Taylor last night, appeared in the Police Court this morning charged with assaulting an officer in the performance of his duties. Taylor testified that he went to one of the notorious houses at Twelfth to stop a disturbance which was going on there, when he was struck by Guerrero. Taylor told the man that he had better go slow, and exhibited his badge. Others joined the fray and there was a general melee, in which Sam Macy's son assaulted Taylor. Martinez took from Taylor a revolver, which he was using as a club. Helen, a Porto Rican lady, testified in Taylor's behalf, corroborating his story.

Guerrero testified that he did not know that Taylor was a real officer. Martinez refused to testify as long as Detective Lenz was the interpreter. The court then made the most extraordinary ruling that a defendant had the right to demand the services of an unprejudiced interpreter. He sentenced Guerrero to eight months and Martinez to nine months' imprisonment.

Sheriff Iaukea stated that it was his intention to speak to the steamship agents regarding their action of having the police arrest obnoxious members of their crews. Martinez and Guerrero had been thrown on the Ventura and had started a rum-pus while the vessel was in this port. The agents had the police arrest the men, but failed to make charges against them, and the police had to release them. In this manner undesirable characters were often let loose in the city.

## BIDS FOR CONVENT SCHOOL ARE ALL TOO HIGH

Bids were this noon opened for the building of the boarding school at Kaimuki, which the Sisters of the Sacred Heart intend to build in one of the two blocks which they purchased there last year. A magnificent two-story stone building and an annex, which was to be used for a music hall, was planned, but as all the bids received today were above the price which the Sisters are willing to spend on the building, the plans will have to be altered and cut down. The bids received were as follows:

Concrete Const. Co.	\$73,475
Rodriguez Costa	\$78,309
Rodriguez	\$82,700
City Mill Co.	\$68,800
W. M. Campbell	\$53,000
De Fries	\$63,300
E. J. Lord	\$72,385

The contract, provided that the stone from which the buildings were to be constructed should be taken from the premises, which are quite rocky.

## SUPREME COURT REVERSES DECISION

The action of J. K. Farley, tax assessor and collector, Fourth Taxation Division, vs. the Makee Sugar Company, to force one lien for taxes, came before the Supreme Court this morning on appeal from the decree of the judge of the Fifth Judicial Circuit. The matter was argued and the Court reversed its decision.

The Circuit Judge found in favor of the Tax Assessor and decreed that he recover from the Makee Sugar Company the sum of \$7,211.50, being the amount of taxes, penalty and interest due and owing upon its real and personal property. It was also decreed that the Tax Assessor recover of the company the sum of \$173.39 for specific taxes. Sale of the property of the company was ordered to satisfy the judgment unless the latter be paid.

## READY-MONEY THIELEN

Geo. P. Thielen, who returned on the Korea, says that while away he met a large number of Honolulu people. "There is plenty of money over there and any man, no matter who he is or what he does, is bound to make a pile," said Thielen of the Goldfield country. Mining stock which was originally valued at 10 cents per share is now worth about \$18.

Through the habit of leaving the keys to the different gates of the Immigration Station where they can be easily obtained by the Japanese in restraint, two prisoners who were to be deported from the country on account of their having contracted trachoma, escaped this morning. One of them was captured shortly afterwards, but the other up to this time has made good his escape.

## P. E. R. Strauch

Furnished 5r. cottage, Manoa Valley, Ideal Summer Home. Large Pool for swimming. Mountain air. Stable. Near car line.—\$17.00 per m.

7-room Cottage near Kalanikū School—\$16. per m.

WAITY BLDG. 74 S. KING ST.

## ABSCONDER WRIGHT SUED BY TREASURER

Treasurer Campbell is after that \$17,935.90, belonging to the Chinese Relief Fund, that disappeared in connection with William H. Wright, the former Treasurer of the Territory who made his get-away in 1902. Campbell doesn't know what chance there is of getting it, but he has a quiet bunch that there are some Wright assets lying around town, and he is trying to pick them up before some one else does.

Treasurer Campbell got his tip from a suit that was filed last Saturday by John Wilson against Wright as defendant, the Bishop Trust Company being named as garnishee.

Campbell stated this morning that he does not know whether or not Wright has any assets in the Territory, but if some one else is trying to recover against him, it is a pretty good sign that there is something to recover against, and if that is the case, the Territory wants to be in on the ground floor.

Wright, it is stated by others, is one of the heirs of the estate of Mrs. Wright, who died not long ago. What his interest amounts to in the estate cannot be stated at this time.

When Wright made his escape from the Territory, he took with him all the funds of the Chinese Relief Fund, amounting to \$17,935.90. He left in their place his I. O. U., dated August 26, 1902, that is all the Territory has to show for the cash.

## SUPREME COURT DENIES REHEARING

A decision was handed down by the Supreme Court this morning in the matter of the petition for rehearing in the case of G. W. Forrester vs. A. M. Hurt. The case was the one in which a doctor brought suit against a husband for services rendered the latter's wife while she was living separately and apart from him. The matter came before the Supreme Court on the ground that in the decision there was a mistake and error in sustaining an exception to a finding of fact by the trial court. This exception, says Justice Wilder in his opinion, was not expressly considered at all, and the only one that was considered was the one that the judgment was contrary to law and the evidence. The petition is denied without argument, no mistake or error appearing.

## TOO MUCH MEASLES

Another school on this island has been closed on account of measles. Superintendent Hahili, after a conference with President Plunkham of the Board of Health, this morning ordered the Kaneohe school closed on account of the prevalence of this disease among the pupils.

Hanalei school is already closed, and many other schools are sending in reports of large number of cases of measles among their pupils. In some instances there have been as many as 50 cases in one school.

## HAWAIIAN GEOGRAPHY

A meeting of the Board of Education is being held this afternoon. Superintendent Hahili stated this morning that the most important matter which would probably come up for action would be the matter of the new geography of the Hawaiian Islands.

Two of the school teachers, C. E. Copeland of Wailuku, and C. W. Baldwin, have submitted manuscripts of new geographies for the consideration of the Board and it is considered probable that one of them will be chosen as the text book to be used in the schools.

Some changes among the teachers will also be considered.

## HENDRY GOT HIS MAN

United States Marshal Hendry returned yesterday from Maui with a prisoner whom he went to Wailuku to serve a warrant of arrest upon. The man is Imamura, and he was wanted on a charge of adultery. His partner in the matter is alleged to be a Japanese woman named Juno Shimizu. She was arrested here yesterday, and her husband is said to be anxious to push the charge against her and the man.

# THE "Maxwell" AUTOMOBILES

MADE ON A PROFIT OF BUT 15 PER CENT

## An Open Letter

FROM THE MAXWELL-BRISCOE MOTOR COMPANY.

TO AUTOMOBILE BUYERS:

You've said yourself and heard others say "I'll buy an automobile when prices are reasonable." Well then, buy now. For we are selling Maxwell automobiles on as close a margin and as small a profit as any other manufacturing business. We would open our books to you with perfect frankness to show the actual cost of manufacturing, the cost of material, of our labor—and would prove that the profit to us on Maxwell cars is less than 15 per cent., and, knowing this, you will agree that we have brought the era of legitimate prices.

At the time of organization, one question to decide was, what would be our policy. First, would we make cheaper priced cars corresponding in power, in size and in design to those made by existing companies, selling them at a legitimate profit and at a price from \$200 to \$300 less, or should we build cars with the "stuff" in them, making them \$200 or \$300 better? That is, costing us \$200 to \$300 more, but selling them at the same price? We decided on this latter policy, the result of which has been that with an existence of a little over two years, the Maxwell sales are second largest in America, and the Maxwell is considered among popular-priced cars as the standard by which all others are judged.

We can build cheaper automobiles, we can use cheaper materials, we can economize in labor, we can build cars, for instance, to sell at \$500, yes, even for \$300. Some carriage makers make \$19 buggies, some piano makers make \$100 pianos, but they are not Brewster buggies, they are not Steinway pianos. No more are cheap cars Maxwells. The difference lies in quality.

The Maxwell Runabout at \$825, the Maxwell Touring Car at \$1,450, and the Maxwell Car De Luxe at \$3,000 are the best automobile values in the market today for the money.

These, Mr. Reader, are facts. Frankly, we are at a loss to understand why men still buy automobiles with the engine under the body, with the single chain-drive, with wooden bodies. Such buyers consider first cost only, they forget the cost of maintenance. The "pass up" simplicity, reliability and comfort.

You want proof. Ask a Maxwell owner, ask one who has driven his car thousands of miles with practically no "up keep," no cost of maintenance. Ask the man of the family, for the Maxwell is preeminently the "American Family Car." Remember that out of what you spend for a Maxwell, as small a portion represents the profits made as in any standard article you buy. Please investigate.

Yours truly,

MAXWELL-BRISCOE MOTOR COMPANY.

Tarrytown, N. Y.

THE FIRST SHIPMENT OF THE FAMOUS MAXWELL CARS HAS JUST ARRIVED.
